Laundry / Housekeeping Sanitation Program

Lowest End Use Cost in the Industry!

Highest Quality Chemicals

Outstanding Service 24/7

Next or Same Day Delivery (No Minimums)

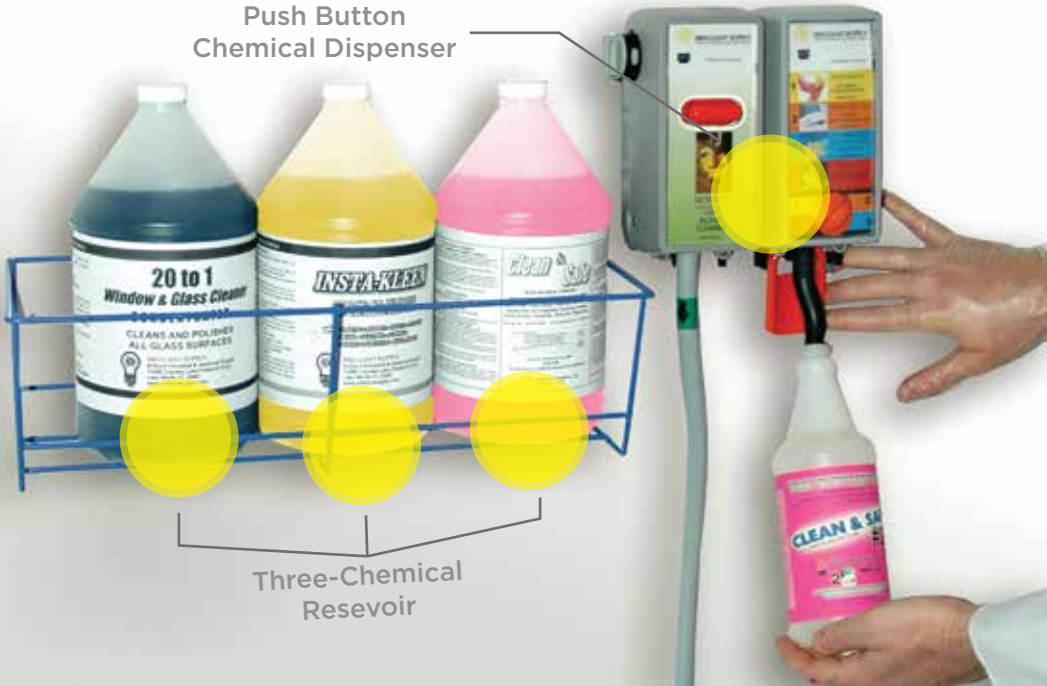

State-of-the-Art Chemical Dispensers Included

HOW IT WORKS

Perfectly Blended Chemical Formulations to Ensure The Lowest End Use Cost in the Industry.

Push Button
Chemical Dispenser

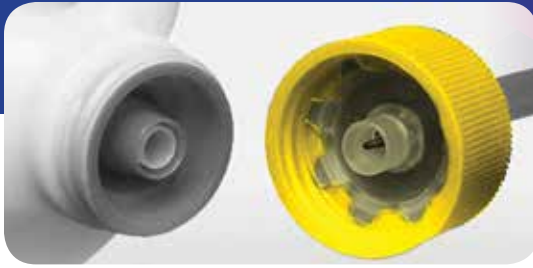

Three-Chemical
Reservoir

Advantages of the Brilliant Supply Chemical System

- Employee time required to prepare solutions is greatly reduced
- Dispenses chemicals at the touch of a button
- Automatically diluted solutions are easy to use immediately in spray bottles and other containers
- Convenience of having chemicals on hand at all times
- Potential for back strain is reduced by limiting the lifting of large chemical containers

How the Service Works:

- Brilliant Supply installs dispenser and reservoirs
- Brilliant Supply visits your facility on a regular basis to replenish reservoirs
- Brilliant Supply maintains the unit, ensuring it is always functioning properly.
- All chemical information printed in three languages on label. English Spanish, Creole for easy translation.

Advantages of Color Coded Cap System

- Easy of use - Matching cap (colors to chemical)
- Cuts way down on pilferage
- Employees safety improves due to chemical locked in gallon
- End use cost exactly what's promised because chemical can't be poured out by employee

State-of-the-Art Proprietary Dispensing Systems Custom Design and Field Tested for Ease of Use and Durability

Training

We provide continuous training year round scheduled to meet the needs of your employees

Superior Performance • Superior Service Outstanding Quality

Simple, Accurate, Space-Saving, Safe and Convenient

Cleaning chemicals are designed to be diluted to specific concentrations to maximize effectiveness of the cleaning solution. Employees typically ignore the correct proportions when diluting cleaning chemicals with water, thus creating waste and reducing product effectiveness.

Benefits of the Brilliant Supply Cleaning Chemical System

Better chemical performance - correct dilution and controlled portions optimized cleaning performance.

Labor savings - No additional labor is required to make up for solutions that are too weak, or to restore areas damaged by solutions that were too strong.

Improved employee safety - Exposure to potential eye and skin irritants is reduced by eliminating splashing and spilling when chemicals are poured.

Ease of Use - Color-coded system and comparison wall chart ensure ease of use for employees.

Space-saving - No need to store large amounts of chemicals, which also cuts down on pilferage.

Brilliant Supply Housekeeping Sanitation Difference

Amazing fragrances and colors in all of our concentrates. (99% popularity rating).

All bottles are labeled with full instructions in **3 languages** (English, Spanish, and Creole) for ease of translation.

Color coded cap system and “Locked-out” gallons to ensure all chemicals are used correctly and employees stay consistently safe.

State-of-the-art, **proprietary dispensing equipment** is included, along with large informational wall posters to identify all chemicals and their uses.

4 main products used on a daily basis to maintain cleanliness of the hotel rooms. (All purpose, bathroom, glass and odor control).

Brilliant Supply Laundry Difference

- Noticeably cleaner, whiter and softer linens
- Laundry has a clean, fresh scent
- Minimal rewashing
- Reduced linen replacement costs
- Increased labor productivity
- Same / Next Day delivery, guaranteed

Superior Performance

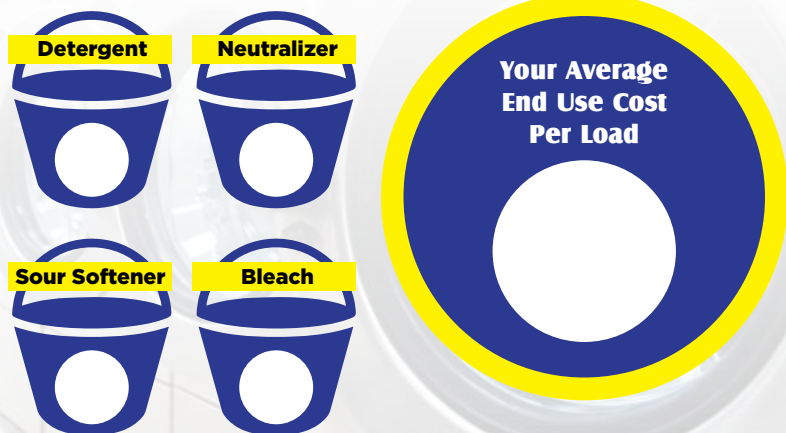

We are committed to delivering the best results the first time!

Reduced Environmental Impact

Our programs protect employees' health & safety while minimizing impact on land, air, and water.

Operational Savings

Use of our products and delivery methods minimize wasteful consumption of water, energy, and the product itself while lowering labor costs.

Laundry Sanitation Pricing for Commercial On-Premise Laundry

All Laundry Chemicals for Commercial Machines

Item #	Product Name	Description	Pack Size	Price
Oxy Brite	Oxygen Bleach "New Color Safe Formula"	Outstanding way to whiten any fabric, bright colors or whites without damaging the color of fibers. Perfect for use where high iron is present and you cannot apply chlorinated bleach. PH 11-12	5 GAL	\$89.50
Citrus-Solv	Citrus "Pre Wash Grease Blaster"	This is a true 40% delimonene base formula that quickly penetrates any grease or soil build up during the pre wash cycle. Specifically developed for chef coats and greasy kitchen rags. Will leave any fabric free of greas and bright in color. Orange Fragrance. 2-3 oz application per 50 lb machine.	5 GAL	\$169.00
Rust Spotter	Rust Spotter "Rust Stain Remover"	Designed to quickly and completely remove rust stains from clothing, linen, towels, carpeting, upholstery and most other fabrics. Alos effective for rust removal on hard surfaces such as concrete. Contains a powerful blend of ingredients designed for instantaneous results.	6 X 1 GAL	\$69.99
S-32	Spot and Staine Remover "All Purpose Spotter for Laundry"	Safely removes spots and stains from garments, upholstery, draperies, carpets and vinyl materials. Can be used as a pre wash or dry cleaning stain remover.	12 X 1 GAL	\$69.00
Bril-Starch	Bril-Starch "Liquid Sizing/ Starch"	New product designed to yield life to fabrics. Helps to impart smooth, semi-rigid finish to shirts, sheets, uniforms, table linens and fabrics. Effective on cottons, poly/cotton blends and polyester. Perfect for use in automatic injection systems. PH 2.5-3.	5 GAL	\$149.99
Power House	Power House "Premium Alkaline Builder Break"	Concentrated high alkaline built break. For industrial and institutional use only. Use with automatic dispensing equipment. PH 13.8. End use cost is low.	5 GAL	\$94.89
Suds 40	Suds 40 "Industrial Power Detergent 40LBS"	A heavy duty, low-foaming, powdered industrial laundry detergent. Removes heaviest dirt from white or colored fabrics. Ultra-concentrated formula powers out tough stains, dirt and grease. Only 1 cup per wash. Each box will give at least 63 wah loads.	40 LBS	\$52.88

Laundry Sanitation Pricing for Commercial On-Premise Laundry

All Laundry Chemicals for Commercial Machines

Item #	Product Name	Description	Pack Size	Price
Gentle Clean	Gentle Clean "Non Built Detergent"	PH controlled detergent, combining surfactants, chelating agents and sequestering agents to perform the maximum in oil, grease and soil removal within a controlled PH environment. Effective at low temps. For industrial and institutional use only. PH 8.3	5 GAL	\$89.90
			4 X 1 GAL	\$72.00
1398+	Soil Blaster Plus "Heavy Duty Neutral/ Ultra High Quality Soap"	May be used in household and commercial applications. PH 7-8. Clean fresh fragrance. Will not damage sensitive fabrics. Use as directed colors stay bright and whites will never turn grey. No harsh acids or alkalis. Safe for machine operators.	5 GAL	\$99.95
Sour Ball	Sour Ball "Liquid Laundry Soap"	A high acidic product design to neutralize residual alkalinity in fabrics and adjust linen PH to minimize potential for skin irritation. PH 1 . For industrial and institutional use only.	5 GAL	\$95.70
Soft Touch	Soft Touch "Fabric Softener"	Special quarternary softening agents stay with the fabric during extraction, attaching themselves securely to all fibers. Soft Touch will not build up on fabrics causing them to grey or dull. For industrial and institutional use only. PH 6-8.	5 GAL	\$95.70
Neutra-Soft	Neutra-Soft "Institutional Laundry Sour and Softener"	Institutional liquid designed to leave fabrics soft and pliable while neutralizing residual alkalinity, thus preventing bed sores or skin irritation. A must for nursing homes, hospitals, shirt laundries, uniform washing or any application where a high alkaline detergent is used. Add to final rinse at a rate of 2-4 oz for 50 lbs.	5 GAL	\$98.70
325	So-Soft Softener "New Updated Downy Fragrance"	Delivers complete softening and static free fabrics at extremely economical dilutions. Particularly in a commercial setting with an OPL automatic wall pump. Recommended to be diluted down to about 2 oz to avoid overuse and waste. PH 6.	5 GAL	\$95.70
322	Snow White "Fabric Destainer"	This high concentrate 12% hypochlorite has been long known as the ultimate way to destain and whiten whites. Extremely economical and can be used in 50-60 lb machines at dilutions as low as 2 oz. Be careful when using bleach. Always wear eye and hand protection. PH 10-11.	5 GAL	\$38.69
